Work Experience

Product Lister Jan '24 - Sep '24
Bakell® · Loma Linda, California, United States · On-site

- Optimized product management with bulk upload templates, compliance audits, and Shopify tag categorization to enhance efficiency.
- Updated Shopify themes and aligned third-party platforms while leveraging competitor research to improve product strategy.
- Collaborated in cross-departmental meetings to drive alignment and execute product initiatives seamlessly.

Bank Teller Oct '22 - Dec '23
Banc of California · Santa Barbara, California, United States

- Processed deposits, withdrawals, and check cashing transactions while ensuring accuracy and customer satisfaction.
- Supported account management by assisting with new account openings and proactively reaching out to customers about their banking needs.
- Maintained an organized workspace and collaborated with the team to enhance branch operations and resolve customer concerns.

Salesforce Aug '21 - Feb '22
Collabqor · Remote

- Developed and integrated custom Salesforce solutions to optimize sales processes.
- Oversaw and ensured the successful implementation of API integrations, maintaining seamless functionality.

Data Analytics Engineer Mar '21 - Aug '21
Collabqor · Remote

- Identified errors and optimized tags within the existing data layer for the LEGO website to ensure accurate tracking and reporting.
- Assisted in developing the SOP and service proposal, outlining tailored analytics solutions for LEGO.

Project Manager Jan '20 - Aug '21
Collabqor · Remote

- Managed team time cards and maintained accurate records to ensure seamless project scheduling.
- Created Gantt charts for initial development plans, providing clear timelines and milestones.
