Work experience

Attronica (Extern) | Financial Planning & Analysis (FP&A) *Remote | 07.2026 – 09.2026*

- Lead Extern; awarded Top Performer (**top 10% of participants**) for exceptional effort, initiative and presentation.
- Analysed four years of audited financials for a mid-sized private IT services company using Excel and AI-assisted modelling, and gave stakeholder-specific recommendations to Sales, Operations and Finance leadership.
- Built a segment-level income statement and driver-based projections for one division, constructed a DCF valuation with sensitivity analysis, and cross-checked the result against comparable company multiples.
- Delivered a 4-page strategic recommendation document on growth decisions, combining the analysis, projections and valuation into an executive-level read.

TruBridge Healthcare (Extern) | Data Analytics *Remote | 04.2026 – 06.2026*

- Collected, cleaned and validated healthcare and public health datasets using Python, Pandas and Google Colab, handling missing values and duplicates.
- Ran exploratory data analysis and statistical analysis to identify trends and factors affecting health outcomes.
- Produced research reports, dashboards and presentations that communicated findings and recommendations.

Energy Innovation Capital (Extern) | Venture Capital Analyst *Remote| 09.2025 – 11.2025*

- Sourced and screened five early-stage energy, industrial and sustainability startups against the fund's investment thesis using Crunchbase and other online platforms, logging each company's profile (website, funding, team size, sector) in a shared tracking spreadsheet.
- Produced a comparative sourcing analysis of the shortlist to support the choice of one company for deeper review.
- Completed a full due diligence dossier on Kevala Energy covering company profile, market, leadership, technology, competitor benchmarking and financials.
- Wrote seven investor-style synthesis reports (market, technology, leadership, competitive landscape, synergy) that turned diligence data into concise summaries and risk and scalability assessments.

Self-Employed Trader | FX & Commodities (via FTMO**)** *Remote | 01.2023 – 08.2025*

- Traded gold and major currency pairs (**USD, GBP, JPY**) through prop firm accounts.
- Analysed the market and checked for upcoming major news and economic events before entering each trade.
- Set a take-profit and stop-loss on every trade to control risk.

Education

University of Aberdeen | MSc, Energy Economics and Finance *Aberdeen, UK | 01.2026 – 01.2028*
