- Cultural competence
- Teamwork and collaboration
- Ethics and integrity
- Critical thinking
- Attention to detail
- Time Management

UNDERGRADUATE DEGREE

Bachelor of Science, Informatics
Four-year Undergraduate Degree
Indiana University Bloomington - May 2005

WORK EXPERIENCE

Pharmacy Technician Externship 2025
CVS Pharmacy - 130 Hours

- Inventory Management
- Initiated Return to Stock protocol daily, pulling orders from waiting bins after 13 days to maintain compliance and minimize waste
 - Processed all returns using RxConnect and replaced patient-specific labels with generic RTS labels to keep PHI off pharmacy shelves
 - Stocked medication shelves after receiving shipments, using FIFO (First In, First Out) method to keep the earliest expirations in front

- Pharmacy Operations
- Created and maintained accurate patient profiles
 - Processed new and transferred prescriptions submitted via multiple channels—handwritten on paper, faxed, and sent electronically
 - Managed the triage queue, identifying and resolving prescription issues to ensure timely patient care
 - Accurately filled medication orders in the production queue, maintaining compliance with pharmacy regulations
 - Investigated and resolved rejected orders efficiently, minimizing delays in medication dispensing

- Time Management
- Increased efficiency and reduced filling time for other technicians by pulling medications, restocking shelves, and placing completed orders in the correct bin for retrieval when needed

Creator and Producer 2024
Pharm Yaks Podcast - <https://pharmyaks.com>
Created a hybrid podcast for aspiring pharmacy professionals based on my notes from Coursera certificate programs. Each week, I curated a new conversation that takes place between two AI hosts, generated by Google’s NotebookLM, covering a topic in medicine or pharmacy.

INDUSTRY CONTRIBUTIONS

Artificial Intelligence (AI) in Pharmacy Advisory Council 2025
California Society of Health-system Pharmacists

Student Ambassador 2025
Futuro Health
