EDUCATION

Georgia State University, Atlanta, GA

Bachelor of Science in Data Science | Expected May 2028

GPA: **4.0/4.0** | President's List

Perimeter College at Georgia State University, Atlanta, GA

Associate of Science in Computer Science | May 2026

Relevant Coursework: Statistics, Calculus I & II, Data Structures, Principles of Computer Science I & II, Theoretical Foundations of Computer Science

Professional Development: Amazon University Event: BEN Tech Cloud Connect Atlanta — AWS Cloud & Generative AI

EXPERIENCE

Beats by Dre | Remote, Georgia

Customer Behavior & Market Analysis Intern | Dec 2024 – Feb 2025

- Analyzed consumer survey data and sales trends to identify patterns and generate **data-driven insights** supporting marketing and product decisions.
- Used Python-based data analysis libraries and Google Analytics to analyze customer behavior and develop reports for stakeholders.
- Translated quantitative findings into clear **visualizations, reports, and business insights** presented during weekly stakeholder meetings.
- Conducted competitive and customer behavior analysis to identify market trends and support brand positioning and business decisions.
- Organized and analyzed information from multiple sources to support research, reporting, and data-driven decision-making.

National Geographic Society | Remote, Abuja, Nigeria

Conservation Project Manager Intern | Jul 2024 – Sept 2024

- Managed 3–5 concurrent projects, coordinating field teams and stakeholders to support reliable project execution and operational efficiency.
- Applied **data analysis** to evaluate conservation strategies and identify trends, contributing to a 10% increase in local biodiversity.
- Analyzed project information and communicated findings through reports to support stakeholder decision-making.
- Supported grant writing and reporting efforts, contributing to **\$10,000 in funding** for sustainability initiatives.

Thels Impact Consulting | Remote, Abuja, Nigeria

Human Resources Intern | Aug 2023 – Feb 2024

- Analyzed and managed high-volume recruitment data, reviewing **100+ resumes** and interviewing 30+ candidates.

- Identified process inefficiencies and helped streamline onboarding processes, reducing cycle time by **20%**.
- Organized employee and recruitment information to support operational reporting and workforce decisions.
- Contributed to initiatives that improved employee retention by **15%**.

Perimeter College Recreation Center | Atlanta, GA
Student Assistant | Jul 2025 – Present

- Support daily operations, front desk management, and customer service for students, faculty, and staff.
- Assist with event setup, facility coordination, and operational processes to support an efficient student experience.
- Communicate with students and staff to resolve operational questions and support day-to-day facility operations.

ACADEMIC PROJECTS

Data Cleaning & Preprocessing Project | Georgia State University
Principles of Computer Science I — Final Project | Python, Pandas, SciPy

- Cleaned, refined, corrected, and organized a dataset using **Python, Pandas, and SciPy**.
- Applied data manipulation and preprocessing techniques to improve the structure, consistency, and usability of the dataset.
- Used Python programming functions and data science libraries to transform and organize raw data.
- Performed data quality checks to ensure the resulting dataset met project requirements.

LEADERSHIP EXPERIENCE

Student Government Association, Georgia State University | Atlanta, GA
Academic Affairs Senator | Jan 2026 – Present

- Represent student academic interests and communicate student feedback to university leadership.
- Collaborate with faculty, administrators, and student leaders on academic initiatives and projects.
- Present student concerns and recommendations to university stakeholders and contribute to discussions surrounding academic initiatives.

TECHNICAL SKILLS

Data Analytics: Python, Pandas, NumPy, Matplotlib, Statistical Analysis, Data Analysis, Data Visualization, Data Reporting

AI & Machine Learning: Generative AI, AI Tools, Machine Learning Fundamentals, scikit-learn

Business & Productivity: Microsoft Excel, Google Sheets, Google Analytics, Microsoft PowerPoint, Google Slides

Programming: Python, Java

Cloud & Technology: AWS (Introductory), Microsoft Azure, Linux, Windows, macOS
