Master of Business Administration, Business Analytics

Texas Southern University

December 2025

Bachelor of Business Administration, Finance, Cum Laude | GPA: 3.2

Relevant Coursework: Financial Management, Investment Analysis, Managerial Economics, Accounting Data Analytics, Statistics

PROFESSIONAL EXPERIENCE

Tucker Financial, LLC

May 2026–Present

Financial Operations Administrative Assistant

Houston, TX

- Analyzed financial and operational workflows across 2,000+ client files, identifying gaps, bottlenecks, and process risks.
- Tracked client documentation and workflow activity to identify recurring delays and prioritize follow-up actions.
- Monitored operational trends and unresolved items to improve workflow visibility and support timely decision-making.
- Identified workflow inefficiencies and supported process improvements tied to approximately \$21K in annual cost savings.

Project Destined

Aug 2026–Oct 2026

Real Estate & Private Equity Intern

Houston, TX

- Performed underwriting, valuation, and investment analysis for multifamily real estate opportunities, evaluating deal structure, cash flow performance, market conditions, and key risk factors.
- Compared investment scenarios and prepared recommendations using financial metrics, value drivers, and risk considerations relevant to credit and investment decision-making.

HP Tech Ventures

Sep 2026–Nov 2026

Deal Sourcing & Startup Analysis Extern

Remote

- Conducted due diligence on early-stage technology companies, assessing business models, market opportunity, competitive positioning, growth drivers, and investment risks.
- Synthesized company and market research into concise investment assessments supporting deal sourcing, screening, and risk-informed decision-making.

SELECTED CREDIT RISK PROJECT

Consumer Credit Risk Analysis

SQL | Power BI | Excel

- Analyzed a 5,000-account consumer lending portfolio and segmented borrowers into low, moderate, and high-risk bands using utilization, debt-to-income ratio, payment history, balances, and account characteristics.
- Identified a 63.1% delinquency rate within the high-risk segment versus 10.0% in the low-risk segment; high-risk accounts represented 18.9% of the portfolio but 39.7% of all delinquent accounts.
- Found accounts above 80% utilization had a 57.8% delinquency rate versus 11.0% below 30% utilization, while customers with 3+ late payments reached 49.6% delinquency versus 13.6% for customers with no late payments.
- Developed management recommendations for tiered risk monitoring, early-warning review queues, targeted borrower outreach, and utilization/DTI-based underwriting flags to focus resources on higher-risk accounts.

LEADERSHIP

University Program Council, Texas Southern University

May 2025–May 2026

President

- Managed a \$343,000 annual operating budget and led 21 executive board members across 15+ departments, applying budgeting, forecasting, vendor coordination, and cross-functional planning to major campus initiatives.

Delta Sigma Theta Sorority, Inc.

Jun 2024–May 2025

Financial Secretary

- Supported financial operations for 150+ members through budgeting, expense tracking, reconciliation, and compliance reporting; developed a financial literacy initiative reaching 150+ participants.
