- Work under pressure
- Service focused
- Detail-oriented
- Communication skills
- Relationship building
- Organizational skills
- Fast learner / adaptability
- Dart, C/C++, Python, PHP, Java, TypeScript
- Laravel, Flutter, Firebase, React
- Git & GitHub, REST APIs, API Integration
- Agile/Scrum, Unit & Integration Testing
- DevOps (Jenkins, Bitbucket), Cloud Deployment
- Software Architecture, Data Structures
- Secure Coding, Code Reviews
- Requirements Gathering, Web UI Development
- Technical Documentation

PROFILE

Mobile App and Backend Developer specializing in Flutter development and backend technologies. Experienced in building functional mobile applications and backend systems using Flutter, Firebase, Django, and Laravel. Skilled in the full development lifecycle, including UI design, API integration, database structuring, and deployment. Proficient in multiple programming languages such as Dart, JavaScript, Python, C/C++, and PHP. Strong teamwork, communication, and problem-solving abilities. Passionate about using technology to solve real community challenges and deliver impactful solutions.

EDUCATION

University of Bamenda, Cameroon Bachelor of Engineering: Computer Engineering	2022 to Present
Presbyterian High School Mbengwi Advanced Level Certificate	2020 to 2022
Government Bilingual High School Galim Ordinary Level Certificate	2014 to 2020

PROFESSIONAL EXPERIENCE

Intern, Backend Developer (Laravel), Skye8 Bamenda, Cameroon	Mar 2025 to Sep 2025
• Collaborated with backend engineers to design and develop a functional Intern Attendance Tracking web application using Laravel. • Built core backend features including authentication, routing, data management, and server-side logic. • Structured and optimized the database to ensure efficient data storage and retrieval. • Completed advanced backend programming tasks for reliability, performance, and security.	

- Conducted system testing, debugging, and usability checks to improve overall functionality.

**Intern, Mobile App Developer (Flutter + Firebase), TraitZ Tech
Bambili, Cameroon**

Jul 2024 to Oct 2024

- Worked with developers to design intuitive and user-friendly Flutter app interfaces.
- Developed and implemented project features for the Thunt App, connecting students to tutors.
- Integrated Firebase database, authentication, and real-time data operations.
- Assisted in backend structuring and overall workflow optimization.
- Performed quality assurance testing to identify bugs and enhance app performance.

**Intern, Mobile App Developer, Skye8
Bamenda, Cameroon**

Jun 2023 to Aug 2023

- Cooperated with developers to build clean UI interfaces and smooth app interactions using Flutter.
- Designed and developed a functional To-Do mobile application with an integrated notes feature.
- Assisted in managing project tasks, feature implementations, and development workflow.
- Completed programming tasks involving front-end logic and state management.
- Performed debugging and testing to improve usability and user experience.
