EXPERIENCE

Extern Mangusta Capital

Remote

Deal Sourcing & Startup Analyst

January 2026 - April 2026

- Conducted deal sourcing for early-stage (Seed & Series A) Vertical AI startups aligned with Mangusta Capital's investment thesis.
- Developed investment memos summarizing thesis alignment, traction metrics, risks, and recommendation rationale.
- Performed in-depth startup analysis, including business models, market size, competitive landscape, and growth potential
- Analyzed 20+ startups across sectors, including FinTech, HR Tech, and AI, to evaluate product-market fit and scalability.

Yinan Value Investing & Financial Modeling

Remote

Equity Research

April 2026-present

- Conducted hands-on equity research by selecting and tracking a publicly traded stock, analyzing price trends, and identifying key drivers of market movement
- Applied stock screening techniques to evaluate semiconductor companies and narrow down investment options using financial and market-based criteria
- Performed comparative analysis to assess company performance, risk factors, and growth potential
- Analyzed the impact of macroeconomic events on stock performance to understand external risk factors

PROJECT EXPERIENCE

Equity Investment Stock Pitch

Brooklyn, NY

Student Analyst

May, 2025

- Conducted market research and analysis on industry trends and financial performance under the guidance of faculty and industry professionals.
- Developed stock pitches involving forecasting earnings, evaluating cash flows, and assessing investment risks.
- Presented insights to a review panel to inform investment recommendations, strengthening skills in financial reporting, performance evaluation, and professional communication.
