EXPERIENCE

Koi – Sushi Lounge

Feb 2024 – Jan 2025

Bartender – 1841 Cordova Road, Fort Lauderdale, FL

- Provided friendly and attentive customer service while accurately taking orders and preparing beverages in a fast-paced environment.
- Maintained a clean, organized, and fully stocked bar while following responsible alcohol service and safety procedures.
- Processed customer payments, managed multiple orders efficiently, and worked closely with team members to ensure a positive guest experience.

Publix

Sep 2021 – Current

Grocery Replenishment Specialist – 601 S Andrews Ave., Fort Lauderdale, FL

- Maintained well-stocked and organized sales floors by efficiently replenishing merchandise and ensuring products were properly placed according to store standards.
- Managed inventory using FIFO practices, rotating products and removing expired or damaged merchandise to maintain product quality and reduce waste.
- Handled high-volume deliveries by unloading, sorting, and organizing merchandise efficiently while maintaining accuracy and attention to detail.
- Provided exceptional customer service by assisting customers with locating products, answering questions, and quickly resolving their needs in a fast-paced environment.
- Collaborated with team members and trained new employees on stocking procedures, safety practices, product organization, and maintaining efficient store operations.

Cyber Netics Club

Sep 2026 – Current

Technical Lead – Broward College

- Configure and troubleshoot virtual machines, operating systems, network environments, and technical lab infrastructure.
- Develop practical exercises using Linux command-line tools, networking utilities, security tools, and system administration techniques.
- Mentor students through hardware/software troubleshooting, network connectivity issues, system configuration, and technical problem-solving.

TECHNICAL DEVELOPMENT & CAREER FOCUS

College Student

Current

- Currently developing foundational knowledge in networking, cybersecurity, and IT systems through college coursework and hands-on practice.
- Building practical experience with Cisco Packet Tracer, network configuration, subnetting, SSH, IP addressing, and basic network troubleshooting.
- Using TryHackMe to practice cybersecurity concepts through hands-on labs, guided learning paths, and Capture the Flag (CTF) rooms.
