

DANILO LAZIĆ

Materials Engineering Graduate | Analytical Problem Solving & Digital Tools
+381 646594851 | danilolazic2015@gmail.com | Serbia

PROFILE

Technology graduate with hands-on experience in food and feed industry operations through Delta Holding's Young Leaders programme, together with experience in a fast-paced retail environment. Strong analytical mindset, intellectual curiosity and practical problem-solving approach, with the ability to learn unfamiliar processes quickly, collaborate across teams and adapt to changing priorities.

Planning to continue studies in Digital Process Engineering MSc at the University of Belgrade.

EXPERIENCE

Delta Agrar – Danubius & Delta Feed | Young Leaders Mar 2026 – Aug 2026
Programme Trainee

- Completed a six-month traineeship across Danubius and Delta Feed, gaining direct exposure to industrial operations in food and animal-feed production and quickly learning unfamiliar processes.
- Worked in different operational environments and collaborated with colleagues across functions, building a structured understanding of how technical, production and business priorities connect.
- Applied an engineering mindset to analyze processes, identify issues and contribute to day-to-day problem solving and continuous improvement.

Univerexport | Student Worker

- Worked in a fast-paced retail environment, strengthening reliability, communication, prioritization and time management while responding to customer and operational needs.

EDUCATION

University of Belgrade – Faculty of Technology and Metallurgy (TMF) | MSc Digital Process Engineering Planned Oct 2026
Planned master's enrollment focused on digitalization, process optimization and data-driven engineering.

University of Novi Sad – Faculty of Technology Novi Sad | Bachelor
Studies – Materials Engineering, Completed courses in the fields of process, chemical and materials engineering.
Completed: 2026

Summer school in materials research at the **University of Silesia in Katowice, Poland**
Completed: 2024

Bachelor thesis completed in the field of materials engineering.

SKILLS & INTERESTS

LANGUAGES	Serbian – Native English – C1 German – B1
DIGITAL TOOLS	Microsoft Excel PowerPoint Word Basic Python AI tools – daily use for research, analysis and productivity
CORE STRENGTHS	Analytical thinking Structured problem solving Attention to detail Communication Prioritization & time management Continuous learning
INTERESTS	Reading books & continuous learning Strength training & fitness Personal investing & company research AI & emerging technology
ADDITIONAL	Driving licence: Category B
