ACADEMIC PROJECTS

Wheat Commodity Research Report (Strategic Sourcing), University of Michigan — *Sept 2026*

- Assessed raw material supply risk for a packaged food product by analyzing commodity price volatility, wheat futures and basis, and shifting global export flows
- Evaluated trade compliance, labor availability, and regulatory factors affecting supply continuity, and recommended risk mitigation strategies

Qualcomm Consulting Project (Information Systems Analysis & Design), SDSU — *Sept 2025 - Dec 2025*

- Analyzed the end-to-end consumer journey, identifying a redundant click path and a gap in real-time partner pricing data
- Designed a technical proposal integrating Thunderbit web scraping and PROS pricing software to automate real-time data extraction, improving data visibility for decision-making

EXPERIENCE

UI/UX Team Lead, Digital Innovation Lab, SDSU — *Aug 2024 - May 2026*

- Led design operations, collaborating cross-functionally with backend developers to build AI-powered websites, managing multiple projects and deadlines at once
- Developed 15+ high fidelity wireframes establishing consistent UI components

Event Coordinator, International Student Association, SDSU — *Aug 2024 - May 2025*

- Led logistics for events across a diverse group of 50+ students adapting event plans on short notice
- Cultivated an inclusive environment facilitating peer support among students

Team Member, Jamba Juice, San Diego, CA — *Jun 2025 - Aug 2025*

- Delivered a strong customer experience by resolving issues while maintaining service quality and speed

Team Member, Everbowl, San Diego, CA — *Sept 2024 - May 2025*

- Identified recurring order-prep bottlenecks during high-traffic periods and recommended process improvements
- Led new hire onboarding and training for front-line staff

VOLUNTEERING

Volunteer, Community Food Outreach — *Mar 2019 - May 2026*

- Prepared and assembled meals on a monthly basis for individuals experiencing homelessness
