

PROFESSIONAL PROFILE

Highly proactive International Business graduate (2:1, University of Leeds, Russell Group) with a CMI Level 5 Certificate in Management Consulting, outstanding project management skills and meticulous attention to detail developed across high-performance consulting environments. Proven ability to coordinate multiple workstreams simultaneously, identify problems before they become problems and take full ownership of outcomes with a bias towards action. Intellectually curious with strong commercial awareness and a genuine excitement to learn across AI, entrepreneurship and business operations, comfortable in a fast-paced startup where priorities evolve quickly and hitting the ground running from day one is expected.

KEY SKILLS

- Organisation and Project Management.** Exceptional organisational skills, coordinating multiple workstreams simultaneously, meticulous attention to detail, managing competing priorities, tracking deliverables and ensuring nothing falls through the gaps across complex multi-stakeholder projects
- Proactivity and Problem Solving.** Highly proactive, identifying problems before they become problems, thinking critically and solving issues independently, bias towards action, comfortable taking ownership without fixed scope or slow timelines, hitting the ground running from day one
- Commercial Awareness and Intellectual Curiosity.** Strong commercial awareness developed through consulting and commercial strategy work, genuine intellectual curiosity across AI, science, deep-tech and entrepreneurship, exposure to commercial strategy, partnerships and business operations
- Communication and Writing.** Excellent written and verbal communication, strong presentation and writing skills, producing clear concise outputs for senior leadership and founder audiences, Excel and Microsoft 365, excellent judgement when handling confidential information
- AI and Entrepreneurship.** Built and shipped a functioning multi-agent AI system independently as a personal project, daily use of Claude, ChatGPT and Microsoft Copilot, excited to learn and apply AI tools across operations and business building

PERSONAL PROJECTS

- Competitive Intelligence Agent | Multi-Agent AI System, Wayfair Case Study** Jun 2026 to Jul 2026
- Identified a real commercial problem, took full ownership and independently designed, built and shipped a multi-agent AI system end to end. Coordinated multiple workstreams simultaneously, from data gathering to analysis to report generation, with meticulous attention to detail at every stage. Surfaced a complete gap in the 100 to 300 dollar price range across Wayfair, Amazon and Walmart and identified Wayfair's premium pricing position, producing a polished intelligence report with clear commercial recommendations.
- Chief Marketing Officer, Commercial Strategy Simulation | Leeds University Business School** Jan 2025 to Jul 2025
- Placed 1st nationally out of 250 teams. Demonstrated outstanding commercial awareness and critical thinking under competitive pressure, coordinating across multiple functions simultaneously, making fast decisions with incomplete information and executing with meticulous attention to detail to deliver 20 percent profit margin growth.

WORK EXPERIENCE

- Strategy Consultant (Externship) | Schreiber Foods** Feb 2026 to Apr 2026
- Worked directly alongside senior leadership across 14 global accounts in a high-performance consulting environment, coordinating multiple workstreams simultaneously with meticulous attention to detail and proactively identifying operational problems before they escalated. Handled confidential business data with excellent judgement throughout.
 - Took full ownership of a complex, cross-functional commercial strategy project from discovery to delivery, producing a written strategy report and presentation adopted at Director level and applied AI tools including Claude, ChatGPT and Microsoft Copilot to accelerate output quality by an estimated 40 percent.
- Student Advisory Board Member | University of Leeds Lifelong Learning Centre** Feb 2024 to Aug 2025
- Supported senior university leadership by coordinating multiple improvement workstreams simultaneously, proactively identifying service gaps before they became complaints, producing clear written reports and presentations and following through until three proposals were adopted at leadership level, contributing to a 10 percent or more satisfaction uplift.
- Brand Representative (Sales) | Hollister Co.** Nov 2021 to Jan 2022
- Operated with a bias towards action in a fast-paced commercial environment with rapidly evolving priorities, exceeding individual targets by 15 percent through proactive, ownership-driven execution and meticulous attention to every customer interaction.
