SUMMARY

Computer Science student interested in cybersecurity and pursuing a career as a SOC Analyst. Strong problem-solving, attention to detail, communication, and teamwork skills. Experienced in following procedures, handling information accurately, identifying problems, and working with others to complete tasks. Seeking a cybersecurity internship to apply these skills, learn security tools and processes, and gain hands-on experience in security operations.

PROFESSIONAL EXPERIENCE

Inventory & Operations Associate

05/2026 – 08/2026 | Covington, GA

Publix Super Markets, Inc

- Assisted customers by listening to their needs, finding the right products, and resolving questions or issues while providing clear and helpful information.
- Checked inventory and product information, identified items that needed to be restocked, and kept products organized and accurate to help prevent shortages or errors.
- Followed company procedures and completed daily tasks accurately while communicating with team members to solve problems and keep work moving in a busy environment.

ORGANIZATIONS

Covington Police Department

02/2026 – 05/2026 | Covington, GA

Explorer

- Participated in training scenarios where I had to assess situations, identify what needed to be done, and follow established procedures while responding to different incidents.
- Worked with other participants during drills by communicating information, sharing responsibilities, and making decisions based on the situation presented.
- Practiced responding to changing situations during training exercises while maintaining attention to detail, following instructions, and working with team members to complete each scenario safely.
