

ENOCH ANTHONY

Kano, Nigeria · +234 813 706 7653 · enochtony4real@gmail.com

PROFESSIONAL SUMMARY

Field data collector with over three years of experience working on education and health projects across Kano State. I've conducted interviews, administered surveys, and worked directly with households, schools, and community members to gather reliable data.

I'm comfortable using tools like KoboCollect and SurveyCTO, and I pay close attention to data accuracy and completeness. I also engage respondents respectfully, explain research clearly, and follow ethical guidelines at all times.

EXPERIENCE

Field Enumerator & Community Engagement Support

British Council · Kano State · 2023 – 2024

- Collected student-level data across three LGAs in Kano State using KoboCollect and SurveyCTO, covering schools and households as part of education monitoring and evaluation projects.
- Facilitated informed consent sessions with school administrators, teachers, and community members, ensuring every participant understood the purpose of the research before taking part.
- Mobilised households and sensitised communities on immunization and education programmes, building trust with local stakeholders to improve participation and data reliability.
- Submitted daily field reports and worked closely with supervisors to flag data quality issues early, consistently meeting project benchmarks across all assigned sites.

Field Enumerator

SCIDaR – HPV & SMC Projects · Kano State · 2023 – 2024

- Conducted structured interviews for an HPV intervention study and transcribed over 10 audio sessions in both Hausa and English, capturing responses accurately for qualitative analysis.
- Maintained ethical standards and respondent confidentiality across all field activities, in line with research guidelines and data protection requirements.

Customer Service & Sales Officer

Kexco Global Ventures Ltd · Nigeria · 2020 – 2023

- Managed customer interactions across calls, email, and WhatsApp, resolving complaints and following through until each issue was fully closed.
- Used Sniper CRM to track orders and follow up proactively, coordinating with 25+ logistics agents across Nigeria and cutting delivery resolution time by 25%.
- Exceeded sales targets by 40% in the first three months and maintained above-target performance through consistent, relationship-driven customer engagement.
