Professional summary

I am an impact driven graduate with a background in pharmacy, public health research, regulatory systems, and data analytics. I have experience in compliance documentation, risk assessment, sustainability-related health research, and structured reporting in regulated environments. I have a strong quantitative and governance oriented mindset with demonstrated ability to translate data into actionable insights.

Work history

Federal College of Education Yola, Clinic (NYSC)

Clinical Pharmacy Officer

June 2025 – May 2026

- Managed procurement documentation, inventory control, and medicine quality assurance processes.
- Ensured compliance with safety standards, controlled drug protocols, and ethical dispensing practices.
- Delivered patient education on medication safety and public health risks.
- Monitored medicine storage conditions and reduced wastage through proactive stock management.

Amazon Healing for Women and Children Initiative, Yola | January 2026 – Current
