Education

McGill University – Desautels Faculty of Management Montreal, Canada
Bachelor of Commerce, Business Analytics and Sustainability *Aug. 2023 – May 2027E*

Experience

Intelcom|Dragonfly May 2026 – Aug. 2026
Data Analyst Intern *Montreal, Canada*

- Wrote SQL scripts in Snowflake to extract, clean, and pipeline data across 2M+ records for enterprise reporting.
- Designed executive Power BI dashboards comparing route forecasts against actuals, sharpening planner evaluation accuracy.
- Automated daily performance report distribution using Power Automate, eliminating manual overhead, saving 5+ hours weekly.
- Communicated weekly operational metrics to cross-functional leads and managers, driving alignment on key team efficiency KPIs.

EmzingoU May 2025 – Jun. 2025
Consultant – Digital Transformation Strategy *Madrid, Spain*

- Benchmarked client operations against 2 peer NGOs to pinpoint strategic gaps and expansion opportunities.
- Facilitated a focus group with former volunteers, generating insights that shaped the organization's alumni engagement strategy.
- Synthesized qualitative feedback from focus groups into actionable volunteer retention strategies.
- Developed a digital communication roadmap to support organization's transition to structured online engagement.
- Presented strategic recommendations to NGO's executive director using tailored PowerPoint materials.

Oct. 2025
BI Analyst – Volunteer Trends *Montreal, Canada*

- Constructed interactive Power BI dashboards mapping volunteer motivations to guide engagement strategies.
- Constructed interactive Power BI dashboards using Power Query to transform 2,000+ survey responses across 15+ sheets.
- Highlighted trends in willingness to volunteer, enabling targeted engagement strategies.

FinLi Mar. 2026 – Jun. 2026
Co-Founder– Financial education *Montreal, Canada*

- Interviewed 4 stakeholders in the financial and education sectors to better understand the problem of financial illiteracy among students.
- Reduced the stigma surrounding personal finance by conducting 30-minute weekly peer-to-peer workshops discussing the subject and helping participants take steps in their finances.
- Created surveys to collect data on students' financial issues, to better inform workshops.

Projects

HR Analytics Consultant - AI Adoption Strategy Nov. 2025 – Dec. 2025
HR Analytics Consultant – AI Adoption Strategy *Montreal, Canada*

- Conducted a stakeholder interview with the Director of HR at Quebec's 2nd largest formwork company to diagnose barriers to workplace safety and understand organizational needs.
- Developed individualized buy-in guides for executives, HR staff, and frontline construction staff, giving HR tailored, persuasive approaches to address each group's priorities and increase organizational adoption of AI tools.
- Designed an AI ethics navigation guide helping HR identify and mitigate risks such as function creep, bias, and misuse during AI implementation.
