- ⇒ Drawing

PROFILE

I am a tech enthusiast with principal objective to learn cybersecurity. Aged 18, I am passionate about learning and discovering new things especially when it concerns technology. I try to acquire new skills and improve existing ones.

EXPERIENCE

CODAM Technologies Trainee

-I gained practical skills designing and building web pages using HTML and CSS as well as WordPress.
-I mastered the basics of C and python programming.
-CODAM Technologies in partnership with **UNDP** and a local NGO: **SODEI** organised another bootcamp where I got introduced to robotics, building simple robots using Arduino board and its IDE.
-At the end, I received the award of "Top Participant" for grade three(15years+) as well as that of "Leadership" which testifies of my strong team spirit.

Internship at a repair and maintenance shop (June-August 2023)

-I learned how to repair, maintain and troubleshoot common problems in computers during this internship.
-I learnt to communicate effectively with clients who require our services.

Student Internship at PRO 1 ENGINEERING SARL (July 2024)

-Gained hands-on experience in **programming** with Scratch and Arduino; developed basic robotic prototypes.
-Explored **AI tools** such as Gemini, Fotor, and Freepik; learned to write effective prompts.
-Created visual content using **graphic design tools** like Canva, focusing on digital communication.
-Assisted with the installation of basic **electrical components** relevant to tech setups (switches, power inverters).
-Acquired foundational knowledge in **technical project budgeting** and preparing estimates.

CYBERSECURITY

-Completed the ISC2 CC course.
-Completed the 90dayscybersecurtiy challenge organized by KamCyber.
-Participated at the H4K-IT Bootcamp Cohort 3.
-Completed the Junior Cyber Security Analyst Path (CISCO)
-In addition, I completed many beginner labs/CTFs on HackTheBox, TryHackMe and followed several tutorials on youtube.

PERSONAL WORK (Currently building a personal website (Techblog), and learning software development with flutter)

PROFESSIONAL SKILLS

- HTML/CSS
- WORDPRESS
- C
- LINUX
- PYTHON
- UI DESIGN
- COMPUTER REPAIR AND MAINTENANCE
- ETHICAL HACKING
- FLUTTER/DART
