Gregory Render-Butler

3153824854 | Greg.renderbutler@gmail.com

Curious and dynamic professional, skilled in project management, advocacy, and social science research. Experienced in conducting qualitative and quantitative research, analyzing data, and interpreting findings to inform program design and policy decisions. Eager to apply new analytical models and leverage skills in data analysis to provide nuanced, systems-informed insights for an intelligence setting.

EDUCATION

Mercer University, Macon, Georgia
Bachelors of Art in Sociology

EMPIRICAL RESEARCH PROJECTS

Factors that influence: *Student perceptions on the use of excessive force by law enforcement* (2019); *Student experiences of mental health symptoms* (2020); *Students to feel Weathered* (2021)

Conducted several independent, empirical research projects. Managed research design, literature review, data collection (survey and field interviews), and data analysis via SPSS. Presented research at annual university symposium via PowerPoint and submitted via research journal format.

FIELD RESEARCH PROJECTS

Micromammal Fossil Research (2018-2019)

- Collected data samples, examining samples under a microscope, taking pictures and measurements to log in Excel, and analyzing data in R Studio.
- Conducted a literature review to build a preliminary survey list; collected and recorded data in Excel.

Herpetological Survey Research Group (2019)

- A herpetological survey was conducted on a 12-acre property in Crawford County where the main goal was to identify reptilian and amphibious species.
- Data and findings were recorded in Microsoft Excel.
