EDUCATION

- **Bachelors of Science**

Stockton University

2021 - 2025

- GPA: 3.62

SKILLS

- Intermediate Python
- Advanced SQL
- Databricks
- Apache Spark
- Apache Airflow
- Git / Github
- Microsoft Excel
- Data / Business Analytics

ABOUT ME

Computer science graduate looking to dive into the world of data with experience in multiple coding languages and technological programs.

TECHNICAL EXPERIENCE

Extern, Breaking Games - Remote

Jul. 13 2026 - Sep. 07, 2026

- Built an analytics database in SQLite, unifying six data sources into one queryable system, engineering cleaned views with filters for bad data.
- Built marketing-channel attribution for all sources to connect ad spend to revenue, converting it into a clear cut ad budget recommendation.

SQL Warehouse

- Used various languages to construct a pipeline for Maven Toys E-commerce dataset.
- Warehouse built using Medallian architecture, primarily using SQL with some elements of Apache Spark and Python.
- Built on the Databricks platform using Unity Catalog.
