EXPERIENCE

Service Leader, Chipotle | Denton, TX

Oct 2025 - Present

- Supervise daily restaurant operations while maintaining efficiency, quality, and customer satisfaction.
- Lead team members during shifts by delegating responsibilities and ensuring operational standards are met.
- Assist with inventory management, labor coordination, and operational problem-solving in a fast-paced environment.

Financial Analyst, Financial Forecast Model – Chipotle | Independent Project

Summer 2026

- Built an Excel financial forecast model using historical revenue and operating expense data to evaluate Chipotle's financial performance and project future results.
- Analyzed revenue growth and operating expenses, comparing \$11.31B in 2024 revenue to \$11.93B in 2025 and evaluating the relationship between sales growth, costs, and operating profitability.
- Created financial projections and data visualizations to identify performance trends and communicate forecast assumptions and expected financial outcomes.

Financial Analyst, Personal Finance Dashboard | Class Project | UNT | Denton, TX

Spring 2026

- Analyzed personal transaction data using Microsoft Excel, categorizing expenses and creating PivotTables and charts to identify spending trends across major expense categories.
- Developed an interactive personal finance dashboard to visualize spending patterns and transform raw transaction data into actionable insights for budgeting and expense management.
