SUMMARY

Computer Networks student pursuing a Bachelor of Arts with a minor in Management Information Systems, interested in the intersection of technology, business, and process improvement. Developing skills in C++ programming, technical problem-solving, and collaborative work, with a focus on improving organizational systems and processes. Seeking opportunities to gain practical experience and contribute to technology-driven initiatives.

EDUCATION

Oakwood University

Bachelor of Arts in Computer Networks | Minor in Management Information Systems

PROFESSIONAL EXPERIENCE

Team Member | Panda Express

2025 – 2026

- Balanced front and back of house responsibilities during high-volume shifts, proactively completing closing tasks to improve workflow and ensure tasks were completed on time.

Crew Member | Chipotle

2024 – 2025

- Maintained an organized work area, coordinated restocking with customer service responsibilities, and collaborated with team members to support efficient operations during shifts.

Counselor | Lone Star Camp

2023 – 2025

- Coordinated with fellow counselors to supervise children ages 6–8, resolve conflicts, and keep daily activities organized and on schedule.

PROJECTS

C++ Simple Calculator

Created a calculator using variables, user input, arithmetic, switch statements, and conditional logic.

C++ Student GPA Checker

Created a C++ program using user input and conditional statements to evaluate and determine student academic standing.

SKILLS

- C++
- Microsoft Office: Excel, Word, PowerPoint
- Google Workspace: Docs, Sheets, Slides
