PROFESSIONAL SUMMARY

Third year BSc Accounting and Business management student at Brunel University London, predicted a First, complemented with seven ACA exemptions and practical audit exposure through EY and KPMG virtual experience programmes. Commercially curious and analytically driven, comfortable using data and digital tools to support high-quality audit work. Seeking to build a career in Financial Services Audit and progress toward ACA qualification.

EDUCATION

Brunel University London - BSc Accounting and Business Management (Hons)

Oct 2024-Present

Relevant Modules: Financial Accounting, Financial management

Predicted Grade: First

Professional qualifications progress: Eligible for 7 exemptions toward ACA through degree

WORK EXPERIENCE

Barista, Caffè Nero full-time

Mar 2025-Apr 2025

- Processed customer transactions accurately under pressure, maintaining above 90% accuracy
- Collaborated with a team to keep service running efficiently during busy periods
- Processed cash of different currencies and used system to provide change in GBP

EXTRA-CURRICULAR ACTIVITIES/ PROJECTS

Independent Project - Financial Statement Analysis of Tesco PLC

Aug 2026

- Built and analysed 15+ financial ratios using Excel from profitability, liquidity, efficiency, leverage and investment categories using financial statements across five years (2021-2025)
- Analysed financial performance and capital efficiency, including reconciling internally calculated ROCE against the reported figure, identifying varying methodology of capital employed
- Presented findings through an Excel dashboard and written report, translating the 5-year financial analysis into recommendations on deleveraging, working capital monitoring and the investigation of operating-margin decline

Attronica FP&A and Private Company Valuation Externship (Extern.com)

Sept 2026-Present

- Building a financial forecasting model incorporating revenue drivers and scenario analysis
- Applying DCF and comparable company valuation methods to a real business, relevant to the Data and Analysis rotation
- Analysed and reconciled five years of data across 50+ customer accounts, identifying inconsistencies and supporting accurate financial insights and recommendations to department heads

KPMG Audit Virtual Experience

Jul 2026

- Worked with data sets, building an independent expectation of revenue from underlying data across 32 locations totalling £30.6m
- Identified significant variances at 2 of 3 tested locations, applying professional judgement to assess the real-world impact and conclude further inquiry was required
- Assessed risk ratings using audit materiality thresholds

EY Audit Virtual Experience

Aug 2025

- Analysed financial statements and reviewed internal controls across a client's business process, identifying risks including fraud and unrecorded liabilities
- Reviewed output from a data analysis tool, forming conclusions on a US\$1m balance sheet imbalance
- Reviewed a 5-year cash flow forecast, evaluating management assumptions and summarising conclusions
