

MUHAMMAD FARAZ

Software Developer | Java & Spring Boot | PHP & Laravel

Karachi, Pakistan | +92 328 2045170 | farazkhan503128@gmail.com | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Fresh BSCS graduate seeking a Junior/Trainee Software Developer role to apply hands-on skills in Java, Spring Boot, PHP, and Laravel. Proficient in RESTful API development, MySQL database design, and full-stack web development. Built multiple end-to-end projects covering authentication, role-based access control, and CRUD-driven systems.

TECHNICAL SKILLS

Languages: Java, PHP, C++

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Laravel, WordPress, Thymeleaf

Frontend: HTML5, CSS3, Bootstrap5, JavaScript, Ajax, React JS

Databases: MySQL (Design, Queries, Relationships), PostgreSQL (Basic)

Security & Auth: Spring Security (JWT), Session-based Auth (PHP/Laravel), Role-Based Access Control

Tools & Cloud: Git, GitHub, Maven, Eclipse, Spring Tool Suite, VS Code, Postman, Microsoft Azure Fundamentals

Core Concepts: OOP, MVC Architecture, RESTful APIs, CRUD Operations

EXPERIENCE

Full Stack Developer Intern (PHP/Laravel) — FAV Group of Companies (2023, 3 Months)

- Worked on full-stack web development tasks using PHP and Laravel, contributing to real client-facing modules under senior developer guidance.
- Gained hands-on experience with MVC architecture, MySQL database operations, and collaborative development workflows.

Subject Teacher — Private School, Karachi (2021 – 2022)

- Taught and mentored students, building strong communication, planning, and presentation skills applicable to technical training and teamwork.

PROJECTS

Online Vehicle Rental System (Final Year Project) | [GitHub](#)

Tech Stack: Java, Spring Boot, MySQL, HTML, CSS, Bootstrap, Thymeleaf

- Built a full-stack rental platform with a customer portal for browsing/filtering vehicles and booking, plus an admin dashboard to manage inventory and bookings.
- Designed role-based authentication for Admin and Customer roles using Spring Security with restricted access control.

Online Job Portal System

Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, React, MySQL

- Developed Employer and Job Seeker modules with job posting, application tracking, and profile management via RESTful APIs.

Ebook Management System | [GitHub](#)

Tech Stack: Java, JSP, Servlets, MySQL, JDBC

- Implemented user authentication and categorized book browsing/search using JSP, Servlets, and the JDBC/DAO pattern.

Kitchen Web Application

Tech Stack: PHP, Laravel, MySQL, HTML5, CSS3, Bootstrap

- Built a full-stack Laravel app with secure authentication, CRUD for food items/orders, and role-based access control.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — Virtual University of Pakistan (2020 – 2025)

Higher Secondary School (HSC) — Board of Intermediate Education, Karachi (2018 – 2019)

COURSES & CERTIFICATIONS

- Spring Boot 3 Essential Training — LinkedIn Learning
- Microsoft Azure Essentials — Microsoft Press (Cloud Computing Basics)
- DevOps Foundations: CI/CD — LinkedIn Learning
- Claude 101 — Anthropic (AI Tools & Prompt Engineering)
- React Native — Coursera
