MUKHARRAM RASULEVA

AI ENGINEER | SOFTWARE DEVELOPER

Tashkent, Uzbekistan • +998 77 455 58 82 • mukharramdeveloper@gmail.com
LinkedIn: linkedin.com/in/mukharram-rasuleva-228962355

PROFESSIONAL SUMMARY

Computer Science graduate with a focus on software engineering and applied AI. Builds practical digital products and AI-enabled applications using Python, web technologies, databases and LLM integrations. Combines technical problem-solving with business communication, client relationship management and cross-functional collaboration. Interested in remote opportunities across AI engineering, Python development, software engineering and automation.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, C++, SQL
Web & Backend: React, Vite, Django, Flask, HTML, CSS, REST/API integration
AI & Data: LLM/API integration, OpenAI API, Ollama, AI-enabled applications, diffusion models, Bayesian inference
Databases & Tools: PostgreSQL, MySQL, Supabase
Additional: Business process automation, product prototyping, technical documentation

SELECTED PROJECTS

Intelligent Multi-Disciplinary Learning Management System (LMS)
- Designed an AI-enabled LMS concept for multiple academic departments, combining learning workflows with an AI assistant.
- Worked with React, Vite and Supabase Realtime; planned OpenAI-powered conversational support and a deploy-ready application structure.

Emplora — AI-Powered Career & Talent Matching Platform
- Developed an MVP concept connecting university students with employers through student profiles, skills, academic performance and project-based business needs.
- Focused on AI-assisted matching between candidate capabilities and real business tasks.

Dentora — Dental Clinic Operations Platform
- Contributed to the product design and initial development of a clinic-focused AI operating system, mapping role-based workflows across administration, doctors, laboratory, technicians and inventory.
- Worked on a modular product direction integrating clinic operations and patient-facing digital access.

PROFESSIONAL EXPERIENCE

Sales Manager | Camo, Tashkent • *2024*
- Managed customer communication, sales activities and client relationships for training and studio-rental services.
- Supported course sales, negotiated terms with prospective customers and helped coordinate client agreements.
- Contributed to 30+ studio-rental sales through customer outreach and sales conversations.

INTERNSHIP & ACADEMIC EXPERIENCE

Python Development Intern | Syntecxhub — Virtual Internship
- Completed a virtual internship focused on practical Python development.

International Summer School — Mathematics & Artificial Intelligence | Harbin Institute of Technology, China • *Jul 14–25, 2025*
- Completed academic coursework through the School of Mathematics, covering diffusion models and Bayesian inference.

EDUCATION

Bachelor's Degree in Computer Science | TMCI, Tashkent | In partnership with Cardiff Metropolitan University, UK • *2022–2026*
Focus: Software Engineering and Digital Products

Business Management Program | International Business Management Institute (Online), Berlin, Germany
Completed online business management program.

RECOGNITION

- Red Bull Basement — Project Bridge: selected among the Top 10 from 500 submissions (as reported by the candidate).
