OBJECTIVE

Motivated Construction Science Management student with a strong foundation in teamwork, communication, and leadership. Experienced in hands-on problem solving, delivering high-quality customer service, and following construction safety protocols. Dedicated to contributing positively to both the built environment and the communities it serves.

EDUCATION

Tuskegee University — Tuskegee, AL
BS, Construction Science Management: GPA 3.516 — Expected Graduation: 05/29

Building Science Course at Montgomery Preparatory Academy for Career Technologies (MPACT) — Montgomery, AL

SKILLS

Written and Verbal Communication, Problem Solving, Customer Service, Critical Thinking, Organization, Teamwork, Time and Team Management, Carpentry Techniques, Hand Tools Mastery, Microsoft Office

CERTIFICATIONS

OSHA 30-Hour Construction Safety and Health, National Center for Construction Education and Research (NCCER), NAHB Leadership Development Series, Red Cross | Adult and Pediatric First Aid/CPR/AED

EXPERIENCE

PACT (Pathways for Architecture, Construction, and Technologies) — **Tuskegee, AL**
Student Counselor — 06/14–06/26

- Mentored and supervised 15 high school students in designing and constructing a fully built 6×8 storage shed within a two-week program timeline
- Led students through each phase of construction to ensure safe practices, efficient workflow, and accurate execution of building tasks
- Supported student teams in conceptualizing a 20×8 shipping container design-build project, using SketchUp, Revit, and Bluebeam to develop drawings, models, and coordinated design ideas

Work-study Student — **Tuskegee,** AL
Library Assistant — 10/25 -Present

- Support daily library operations by checking out books, assisting students with locating resources, and promoting a welcoming, learning environment
- Respond to student questions with clarity and patience, helping them navigate research tools, technology, and library policies
- Collaborate with library staff to complete organizational tasks, prepare materials, and maintain a smooth workflow during busy periods

PROJECTS

NAHB Custom Home Builders Competition —International Builders Show
Student Competitor, 2026

- Selected to represent university team at the National Association of Home Builders' annual student competition
- Collaborated with a multidisciplinary team to develop a custom home proposal, including estimating, scheduling, design considerations, and presentation
- Earned 2nd place among national competitors at the International Builders Show in Orlando, Florida

VOLUNTEER EXPERIENCE

HBCU Entrepreneurship and Innovation Conference
Volunteer Leader

- Collaborated with a team of 30 students to set up and manage a high-impact conference hosting 400 participants from 50 HBCUs, including students, faculty, deans, presidents, and distinguished guests
- Served as the official timekeeper for multiple competition teams, ensuring accurate, consistent, and fair timing throughout all competitions
- Strengthened project and time management, as well as leadership abilities, by coordinating logistics, adapting to fast-paced challenges, and supporting a large-scale professional event

ORGANIZATIONS AND HONORS

National Association of Home Builders, National Society of Leadership and Success, National Society of Black Engineers, Autodesk Design & Make Ambassador, President of Muslim Student Association, Takeoff Scholarship Recipient, Melvin Kruger Scholarship Recipient, Thurgood Marshall College Fund Scholar, Greenbuild Scholar (USGBC)
