RELEVANT EXPERIENCE

Yinan Value Investing & Financial Modeling Externship | Equity Research Extern May 2026-Aug 2026

- Conducted in-depth equity research on a publicly traded tech software company, analyzing 10-Ks, financials, market positioning, and macroeconomic factors to develop an investment thesis.
- Built valuation models using DCF, comps, and precedent transactions to assess intrinsic value and recommend a long/short position.
- Drafted a professional investment memo incorporating key financial insights, valuation analysis, and risk assessment.

Handshake: Project Breadcrumb | AI Evaluation Analyst

May 2026-Present

- Worked on the evaluation and benchmarking of advanced AI systems, focusing on factual accuracy, multi-hop reasoning, retrieval quality, and source-grounded responses.
- Developed and reviewed complex research tasks, validated evidence chains, analyzed model performance, and identified weaknesses in reasoning and information synthesis.
- Produced high-quality evaluation datasets and structured benchmarks used to assess the capabilities of large language models in real-world knowledge and research scenarios.

Forge: Citi Finance | Simulation Intern

Jun 2025

- Analyzed key financial KPIs and prepared management presentations to support business planning and decision-making.
- Validated Basel III capital adequacy ratios by calculating risk-weighted assets and reviewing compliance across operating units.
- Assessed the impact of COVID-19 on credit card spending trends and monitored liquidity risk through deposit, loan, and surplus analysis.
