PROFESSIONAL PROFILE

Accounting and finance postgraduate with experience in financial operations, supply-chain analytics, business intelligence, and EU-funded project support. Advanced user of Microsoft Excel and the wider Microsoft Office Suite, with hands-on experience in SAP and Notion for reporting, data management, process coordination, and workflow organisation. Strong analytical background supported by Python, R, SQL, Tableau, SPSS, and MATLAB.

PROFESSIONAL EXPERIENCE

- Operations Assistant** | Pleiades Innovation Ecosystem | Patras, Greece Mar 2026 - Present
- Process vendor and client payments, monitor cash flow, and prepare monthly financial reports.
 - Use Excel, Microsoft 365, and Notion to organise finance tasks, track client orders, and maintain operational databases.
 - Support the preparation and submission of proposals for European research and innovation calls.
 - Coordinate project documentation, timelines, and cross-functional communication for active EU initiatives.
- Supply Chain Data Analyst Intern** | Bakalaros Group | Patras, Greece May 2025 - Jun 2025
- Produced inventory and logistics business-intelligence reports using TARGIT Decision Suite.
 - Managed client data and supported supply-chain workflows in SAP.
 - Created Excel analyses and forecasts for transport and vehicle-maintenance costs, identifying cost-optimisation opportunities.
 - Analysed sustainable-energy output through Excel models to support the company's environmental initiatives.
