PROFILE SUMMARY

Finance student with a strong interest in macroeconomics, financial markets, and risk management. Skilled in Excel, financial modeling, and portfolio analytics, supported by hands-on experience through diverse project based internships and finance-focused job simulations. Eager to apply disciplined analysis and contribute insight-driven value while continuously strengthening my technical and market-based capabilities. Motivated to apply analytical skills, learn continuously, and create meaningful value in professional finance roles.

WORK EXPERIENCE

Fynomics Financials

JAN 2026 – FEB 2026

Finance Intern
Remote

- Developed an investor pitch deck showcasing the firm's services, leadership, business strategy, achievements, and long-term growth vision.
- Conducted industry and equity research to evaluate market trends, competitive landscapes, and investment opportunities.
- Participated in Chairman-led mock investor and client pitching sessions, strengthening financial communication, stakeholder engagement, and presentation skills.

PROJECTS

Extern

Portfolio: extern.com/portfolios/om-satyam

Corporate Strategy Externship

JUN 2026 – JUL 2026

- Evaluated corporate strategy, governance frameworks, leadership structures, and stakeholder alignment to assess long-term value creation and organizational resilience. Developed and presented a consulting-style recommendation deck with actionable proposals to strengthen governance, accountability, and sustainable business performance.

Financial Planning & Analysis and Private Company Valuation Externship, Attronica

MAY 2026 – JUL 2026

- Conducted comprehensive FP&A for a mid-sized private IT services company by analyzing audited financial statements, identifying key value drivers, and building driver-based financial forecasts. Performed DCF valuation, sensitivity analysis, and Comparable Company (Comps) valuation, culminating in an executive report with strategic recommendations for senior management.

EDUCATION

GALGOTIAS UNIVERSITY

2025 - 2029

- BBA - Banking, Financial Service & Insurance

Year 01: 9.16 CGPA

SKILLS

Hard Skills

- Financial Modeling & Valuation
- Financial Statement Analysis
- Equity & Market Research
- Market & Sector Research
- Macroeconomic Analysis
- Portfolio Analysis
- Microsoft Excel, Word & PowerPoint
- Technical Analysis
- Trading Strategy Evaluation

Soft Skills

- Analytical Thinking
- Presentation & Public Speaking
- Teamwork & Collaboration
- Attention to Detail
- Problem-Solving
- Crisis Management

- Analyzed end-to-end care coordination workflows to identify process inefficiencies, operational risks, and ownership gaps using root cause analysis. Designed a dashboard prototype to quantify case-management activities, enabling data-driven staffing, risk management, and operational decision-making.

- Conducted fundamental equity research on a semiconductor company by evaluating its financial performance, revenue drivers, industry positioning, historical stock price movements, and long-term growth outlook. Built financial projections and performed DCF and Comparable Company (Comps) valuation to develop a data-driven investment thesis and final buy/sell recommendation.

- Conducted end-to-end due diligence on a technology startup, evaluating its business model, market opportunity, competitive landscape, team, and financial metrics. Synthesized findings into a comprehensive investment memo with an investment recommendation.
