

Pavel Jiofack Tsafack

paveljt@yahoo.com — 973-418-7047 — [linkedin.com/in/pavel-tsafack](https://www.linkedin.com/in/pavel-tsafack)

Summary

Computer science and engineering student with strong problem-solving, teamwork, technical troubleshooting, and tutoring experience. Skilled in Python, Java, SQL, and web development. Passionate about AI, automation, and software engineering. Seeking internship opportunities to apply technical abilities and leadership.

Education

New Jersey Institute of Technology (NJIT) Newark, NJ
B.S. Computer Engineering Sept 2025 – Dec 2027

Essex County College Newark, NJ
A.S. Computer Science | GPA: 3.67 Oct 2022 – May 2025
Graduated with High Honors

Relevant Coursework: Computer Science I (Python), Computer Science II (Java), Data Structures, Database Design, Software Engineering, Computer Architecture, Operating System Calculus I, Calculus II, Physics I, Physics II

Technical Skills

Languages: HTML, CSS, Java, C++, Python, JavaScript

Databases: MySQL, PostgreSQL, SQL Server

AI & Automation: n8n, AI Agents, Prompt Engineering, LLM Workflows, Mistral, OpenRouter

Data & Integration: REST APIs, JSON, Data Parsing, Data Transformation, Workflow Automation

Analytics: Business Intelligence, Competitive Intelligence, Market Trend Analysis, Dashboard Development

Concepts: Object-Oriented Programming, Data Structures, Algorithms, Web Development, AI Basics

Experience

Extern – AI Agent Engineering for Business Intelligence Extern – Wayfair Project June 2026 – August 2026

- Built four connected n8n AI workflows for consumer trend discovery, competitor monitoring, content strategy, and market-intelligence reporting for Wayfair's Rugs category.
- Integrated and analyzed multi-source product and market data using APIs, JavaScript, JSON, LLM prompting, and automated HTML reporting to identify pricing, assortment, trend, and whitespace opportunities.
- Developed an interactive Market Intelligence Dashboard that consolidated AI-generated insights into stakeholder-ready trends, risks, competitive comparisons, and recommended business actions.

Math Teaching Assistant Sept 2024 – Present
Essex County College Newark, NJ

- Tutor students in Algebra, Pre-Calculus, Calculus, and Statistics in both group and one-on-one settings.
- Reinforce conceptual understanding and analytical reasoning to increase academic performance.
- Adapt teaching approaches based on student learning patterns and progress.

IT Specialist / Sales Floor Team Member May 2022 – Present
Target Hackensack, NJ

- Support hardware troubleshooting, device setup, inventory systems, and operational workflows.
- Train **10+** new staff members on tools, safety procedures, and performance expectations.
- Deliver strong customer service and collaborate across teams to maintain productivity.

Projects

AI Image Prompt Generator

Python, Pygame, PyAutoGUI

- Created an interactive graphical tool that allows users to build high-quality AI image prompts with customizable scene, character, lighting, and artistic style parameters.
- Automated ChatGPT prompt submission workflow using PyAutoGUI + Clipboard control, reducing manual repetitive steps and improving workflow efficiency by **80%**.

Jarvis AI — Real-Time Voice Assistant

Python, Speech Recognition

- Built a real-time voice assistant with wake-word activation (“Jarvis”) and **95%** speech transcription accuracy, allowing natural hands-free interaction.
- Optimized command processing to reduce response latency by **25%** and designed a modular skill framework for scalable automation and personal task assistance.

StudyFlow AI — Full-Stack AI Web Application

React, Node.js, MongoDB, OpenAI API

- Built and deployed a production-ready AI-powered student productivity platform serving personalized study planning, assignment tracking, and academic support using React, Express, MongoDB, and OpenAI.
- Integrated cloud-hosted databases, secure user authentication, and GPT-based AI services while managing the complete software development lifecycle from design to deployment.

Leadership & Involvement

- Founding Member & Senator– National Society of Black Engineers (NSBE): Co-founded the first NSBE chapter at a community college; represented Essex County College at the 2025 NSBE National Convention in Chicago.
- President - AI Club: Led a group of 10 members interested in machine learning and software development through Project planning, weekly meeting, and team coordination to build python-base AI image prompt generator with Pygame UI and Automated ChatGPT integration.
- Member - TECS Club: participate i the devlopment of a real-time speech-to-text virtual assistant(jarvis).
- Member - Phi Theta Kappa (PTK): Recognize for academic excellence and leadership involvement.
- Participant– Microsoft M365 Community Days NYC & Google Developer Group DevFest NYC.

Certification & Training

- Certificate — Web Design & Development (Cornell Online) - May 2024 – Aug 2024
- Bloomberg Market Concepts Certification
- Introduction to Machine Learning Concepts (Microsoft Learn)
- Introduction to security, compliance, and identity concepts (Microsoft Learn)
- Introduction to Cloud Infrastructure: Describe cloud concepts,Azure architecture and services and Azure management and governancen (Microsoft Learn)

Awards & Recognition

- Dean’s Office Academic Honors — Essex County College (4 consecutive semester)
- EOF Graduate Academic Award (2025)
- Rover Robotics Competition — 2nd Place (Team of 4)

Additional Information

Languages: English, French
