CORE SKILLS

Technical: Python, R, Excel, Git, Visual Studio Code

Skills: Data Analysis, Object-Oriented-Programming, Data Structures, Data Visualization, Problem Solving, Research, Collaboration, Technical Communication

Technologies: Python, Visual Studio Code, Git, R, Excel

Languages: English, Mandinka

EDUCATION

Bachelor of Science in Informatics | University of Washington Seattle

Graduation Month Year: Expected June 2029

Relevant Coursework: Computer Programming 1, INFO 201: Technical Foundations, Statistics, Calculus 1

Associate in Art | South Puget Sound Community College

Graduation Month Year: June 2026

PROJECTS

BookBot | Python (Personal Project) | September 2026

- Developed a Python command-line application that analyzes text files and generates **word-count and character-frequency reports**.
- Applied file I/O, string manipulation, dictionaries, functions, and command-line argument handling to transform raw text into structured information

Asteroids Game | Python (Personal Project) | OOP | August 2026 - present

- Developing a 2D Asteroids-style game in Python using **object-oriented programming** to organize game entities and behaviors implementing player movement, rotation, projectile mechanics, asteroid interactions, and collision-based game logic.

RELEVANT EXPERIENCE

Data Analysis Extern | CIYG

Sep. 2026 – Present

- 8-week data driven decision-making externship focused on analyzing juvenile justice data
- Developing skills in Python, data analysis, data visualization, statistical research, and correlation
- analysis to examine trends and relationships in real- world datasets

The Sounds News Team | SPSCC | Tumwater, WA

Jan. 2026 – June 2026

- Conducted 30+ interviews with students and community members to gather information, identify recurring themes and develop student-focused stories
- Wrote and published 2 original articles and contributed to 2 collaborative articles, synthesizing information from multiple sources into clear written content

Sales Representative – AT&T | Olympic Marketing Group | Olympia, WA

Mar. 2025 – June 2025

- Engaged with 50+ customers per shift to identify needs and explain AT&T wireless services, pricing, promotions, and device options
- Compared service plans and customer requirements to recommend solutions aligned with individual needs

Team Member | Ikonic Wings | Lacey, WA

Aug. 2025 – June 2026

- Managed front- and back-of-house responsibilities within a 2-3 person team
- Adapted to changing priorities during high-volume shifts while maintain accuracy and completing time sensitive responsibilities
- Trained 2 new team members on order preparation, customer service, and daily restaurant procedures.
