SUMMARY

Supply Chain Management student with hands-on ERP and data management experience, a strong work ethic, and a track record of taking initiative. Reliable and detail-oriented, with experience staying organized and dependable in fast-paced, high-volume environments. Seeking to bring a positive attitude, collaborative mindset, and eagerness to learn to a Supply Chain Internship.

PROJECT - ERP Business Process Simulation (Odoo) *Independent, non-academic project*

GitHub project links: [p2p](#), [o2c](#)

- Designed end-to-end business workflows spanning procurement, inventory, sales, and order fulfillment
 - Configured order-to-cash (O2C) process in Odoo 19, gaining functional knowledge of execution and process management
 - Evaluated simulated business scenarios to identify process improvement opportunities and determine best practices for accuracy and efficiency
-

EDUCATION

Metropolitan State University, St. Paul, MN

Bachelor of Science in Supply Chain Management (Expected December 2027)

Cumulative GPA: 3.58

Relevant Coursework: Business Statistics (Excel), Management of Information Systems, Accounting, Marketing, Microeconomics, Macroeconomics

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Initiator, ISM Supply Chain Business Case Study Competition

Metropolitan State University (2026 – Present)

- Identified and initiated his university's participation in the International Supply Chain Management (ISM) [Business Case Study Competition](#), a national team-based competition that did not previously have a presence on campus.
 - Organized direct outreach to classmates to recruit a competition team, demonstrating strong organizational skills in coordinating people, timelines, and faculty involvement.
 - Collaborating with teammates and a faculty mentor to analyze a real-world supply chain case and develop and present strategic recommendations
-

SKILLS

- Systems & Analysis: Hands-on ERP configuration experience (Odoo), including procure-to-pay and **order-to-cash** workflows; Microsoft Excel (Pivot Tables, Forecasting) for data analysis and reporting
 - Inventory & Operations: Business process mapping across inventory management, procurement, and order fulfillment; identified inefficiencies and generated recommendations for improvement
 - Communication & Customer Service: Develops rapport quickly with customers and coworkers; works cooperatively within a team and communicates clearly under pressure
 - Organization & Reliability: Highly organized with a track record of managing multiple responsibilities and meeting expectations consistently and on time; excellent attendance and dependability in physically demanding, fast-paced settings
 - Initiative & Work Ethic: Self-directed in identifying opportunities and following through, from launching the ISM case competition effort to independently building a full ERP simulation project
-

WORK EXPERIENCE

Front End Cashier - Walmart, Woodbury, MN

June 2023 – Jan 2024; Sep 2026 - Current (returned)

- Assists customers with product questions, store navigation, and inventory inquiries, building rapport quickly
- Resolves customer concerns through clear communication and problem-solving, maintaining a positive shopping experience
- Collaborates with team members and balances multiple priorities in a fast-paced, physically active retail environment

Cashier - Dollar Tree, Woodbury, MN

June 2026 – Sep 2026

- Processed transactions accurately while adhering to established procedures, reflecting strong organizational skills and attention to detail.
- Maintained product organization and inventory availability to support daily store operations.
- Collaborated with team members during high-demand periods, adapting quickly to shifting priorities.
