

# SAMUEL GETAHUN

Greater Seattle Area | [sgetahun174572@gmail.com](mailto:sgetahun174572@gmail.com) | [linkedin.com/in/sam-getahun](https://www.linkedin.com/in/sam-getahun) | [github.com/DayNnite](https://github.com/DayNnite)

**Technical Product Coordinator** with hands-on experience bridging Agile sprint execution, cross-functional alignment, and web application delivery. Proven track record managing backlogs, scoping technical requirements, and coordinating workflows between software engineers and UI/UX designers. Combines practical software engineering fluency (React, TypeScript, SQL, REST APIs) with enterprise operational management to ensure reliable, on-time digital product releases.

## CORE COMPETENCIES & TECHNICAL SKILLS

**Product & Project Coordination:** Agile / Scrum Methodologies, Sprint Planning & Backlog Grooming, Cross-Functional Alignment, Scope Discovery, Wireframing & Prototyping, UAT & Release Coordination

**Technical Fluency:** REST APIs, React, TypeScript, JavaScript (ES6+), SQL, Data Modeling & Visualization, HTML5/CSS3, Git/GitHub, Netlify Deployment, Web Analytics

**Tools & Systems:** Jira, Trello, Asana, Figma, Notion, Google Workspace, Microsoft 365, Enterprise Incident & Log Systems

## TECHNICAL PRODUCT & PROJECT EXPERIENCE

### Technical Project Coordinator — LeadsAI

Aug 2025 – Jan 2026 | Seattle, WA (Remote)

- **Agile Sprint Management:** Facilitated sprint planning, daily stand-ups, and backlog refinement, tracking deliverables for a cross-functional team of software engineers and UI/UX designers.
- **Engineering & Design Alignment:** Served as primary liaison between technical developers and creative leads to clarify functional requirements, eliminate blockers, and maintain release velocity.
- **Milestone & QA Delivery:** Monitored sprint checkpoints and feature validation, ensuring AI web application deliverables shipped on schedule and adhered to project specifications.

### Web Developer & Founder — TeamOne Studios

Jun 2026 – Present | Greater Seattle Area

- **Full Lifecycle Execution:** Direct end-to-end web application delivery from user journey wireframing and technical scoping to frontend development, deployment, and performance monitoring.
- **Technical Scoping & Architecture:** Translate client requirements into responsive UI components and modular application architectures using React, TypeScript, and REST APIs.
- **Release Management:** Oversee deployment pipelines and domain hosting on Netlify, conducting technical SEO audits, cross-browser QA, and page-speed optimizations.

### Security & Operations Professional — Allied Universal

Feb 2023 – Present | Redmond, WA

- **Operational Data Integrity:** Maintain digital facility check-in systems and operational tracking logs across high-security corporate technology facilities with 100% record accuracy.
- **Incident Escalation:** Coordinate real-time issue resolution across facility managers, corporate stakeholders, and technical personnel in fast-paced operational environments.

## FEATURED TECHNICAL PRODUCT PROJECTS

### AI Lead Intelligence Platform — React, TypeScript, REST APIs

[github.com/DayNnite/leads-ai-website](https://github.com/DayNnite/leads-ai-website)

- Architected an AI web dashboard with dynamic lead scoring workflows, integrating REST APIs to turn complex model outputs into intuitive, actionable user interface components.

### Healthcare Readmission Analytics Dashboard — React, SQL

[github.com/DayNnite/healthcare-analytics](https://github.com/DayNnite/healthcare-analytics)

- Engineered an interactive analytics interface with SQL-backed data pipelines to filter and visualize clinical patient readmission risk factors for clinical decision-makers.

## EDUCATION & CERTIFICATIONS

**Central Washington University** — Bachelor of Science (BS) in Information Technology Management

In Progress

**Bellevue College** — Associate of Arts and Sciences (AAS)

Completed

**Certifications:** Agile Project Management Foundation • Foundations of User Experience (UX) Design • Meta Front-End & Back-End Development
