Kano, Nigeria | +234 706 707 0881 | sirdeeqtech@gmail.com | linkedin.com/in/sirdeeq2g

PROFESSIONAL SUMMARY

Results-driven Computer Science professional and analytics practitioner with extensive hands-on experience in database management, data collection tools (KoboToolbox, ODK), workflow automation, and technical training. Adept at transforming unstructured data and business requirements into structured database architectures and actionable insights. Bringing strong technical capabilities in SQL, Python, and data systems to support the SQL & Database Architecture Externship with Breaking Games.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Database & Data Management:** SQL, Relational Database Design, Data Architecture, Mobile Data Collection (KoboToolbox, ODK), Data Cleaning & Validation.
- **Analytics & Automation:** Workflow Automation, Business Intelligence, E-Commerce Analytics, Data Storytelling, AI Productivity Tools & Prompt Engineering.
- **Programming & Tools:** Python, PHP, JavaScript, HTML/CSS, Microsoft Excel (Advanced), Google Sheets, GitHub, WordPress.
- **Project & Operations Management:** Stakeholder Engagement, Technical Training, Curriculum Development, Process Optimization.

PROFESSIONAL EXPERIENCE

Volunteer Digital Skills Trainer

IMH MAGs Virtual Skills Acquisition Program (August 2026 – Present)

- Delivered digital skills training and technology modules to young people aged 15–21 through virtual learning environments.
- Collaborated with team members to ensure effective delivery of practical technology and digital literacy curricula.

Senior IT Instructor & Project Coordinator

Megabrainz Infotech Institute, Gombe (2019 – Present)

- Designed and facilitated over 250+ technical training and capacity-building sessions, managing end-to-end user learning journeys and tracking performance outcomes.
- Utilized advanced data management systems (Microsoft Excel and Google Workspace) to track participant progress, verify metrics, and generate detailed operational reports.

Field Researcher & Project Coordinator

Deliver Nigeria Project / Munir Dankwambo Foundation

- Coordinated community-based research and data collection initiatives, ensuring methodologies met rigorous data governance and operational standards.
- Executed mobile data collection using digital tools (KoboToolbox, ODK), tracking project impact and maintaining high standards of data integrity.

EDUCATION

Master of Science (M.Sc.) in Computer Science (In Progress)

University of the People

Bachelor of Science (B.Sc.) in Computer Science (Second Class Upper Division)

Gombe State University

CERTIFICATIONS & RELEVANT TRAINING

- Artificial Intelligence & Workflow Automation Certificate | Young Innovators of Nigeria (July 2026)
- Artificial Intelligence (AI) for Social Impact | Asian Development Bank Institute (ADBI) (August 2025)
- Cybersecurity Course & Basic Cybersecurity Awareness | ADBI & Hammad Technologies (2025)
- CS302: Software Engineering & CS101: Introduction to Computer Science I | Saylor Academy (August 2025)
- SkilledforNow 2.0 Virtual Bootcamp (Critical Thinking, Problem Solving, AI, Data Literacy) | Youth Empowerment Fund (May 2025)
